2025 SPONSORSHIP & DONOR OPPORTUNITIES

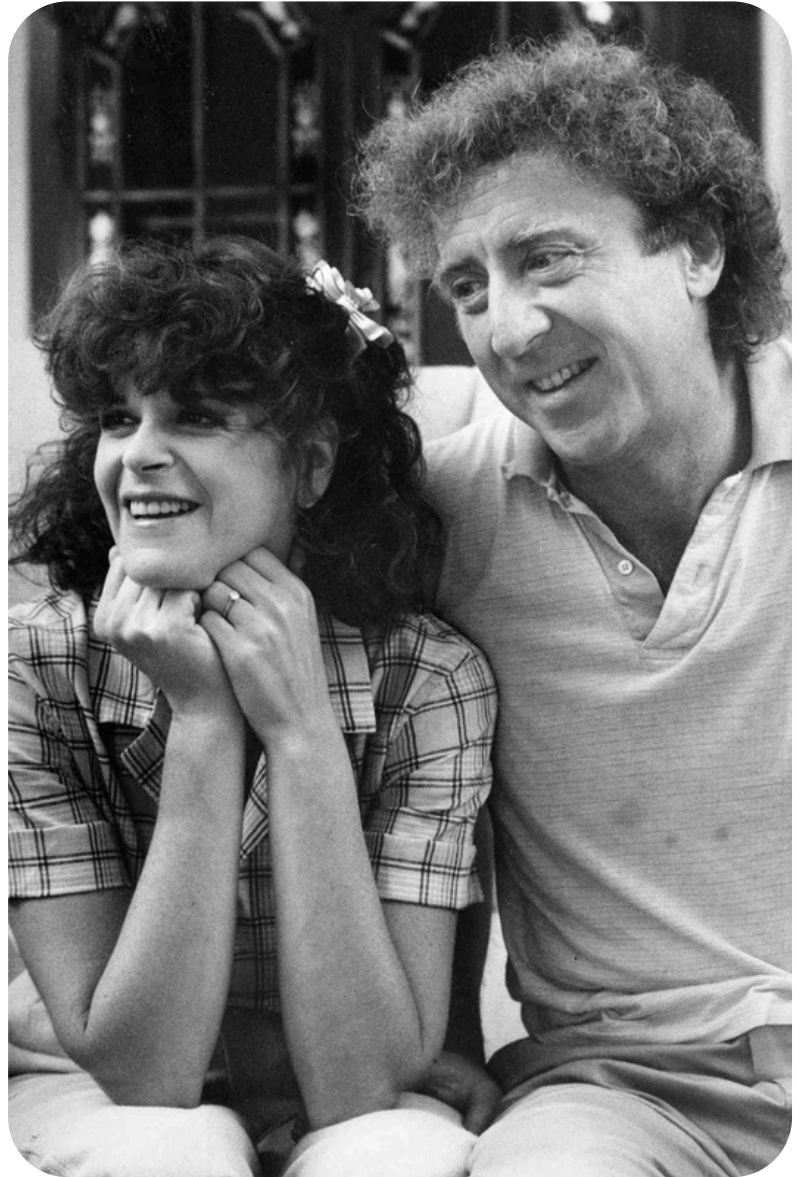

Community is **STRONGER** than Cancer

FROM THE BEGINNING

Gilda Radner

Our namesake, Gilda Radner, was one of the original cast members of NBC's "Saturday Night Live". Throughout her time on the show, she created several enduring characters, including Roseanne Roseannadanna, Emily Litella and Lisa Loopner.

When Gilda was diagnosed with ovarian cancer in 1986 she quickly realized the importance of emotional and social support. After attending The Wellness Community in Southern California, Gilda envisioned places of participation, education, hope and friendship to be made available to men, women and children with all types of cancer and their families and friends. After her death in May 1989 her husband, Gene Wilder, and Joanna Bull – Gilda's psychotherapist – founded the flagship Gilda's Club in New York City which opened its doors in 1995.

GILDA'S CLUB

ABOUT US:

Gilda's Club Simcoe Muskoka is an affiliate of the Cancer Support Community—an essential gathering place dedicated to providing support, education, and hope to all individuals impacted by cancer. In 2025, Gilda's Club Simcoe Muskoka will celebrate its 15th anniversary. As we reach this significant milestone, our primary goal is to ensure that those who have received a cancer diagnosis can access our comprehensive programming. Our Members deserve a warm and welcoming environment, and our 10,000-square-foot Clubhouse, conveniently located across from the Royal Victoria Hospital and the Simcoe Muskoka Regional Cancer Program, serves this purpose. Here, they will actively engage in building vital social and emotional support alongside their medical care.

We are determined to mobilize the financial resources necessary to enhance the visibility of our Clubhouse throughout the community and ensure that our services reach those who need them most so that no one faces cancer alone.

OUR MISSION:

Our mission at Gilda's Club Simcoe Muskoka is to uplift and strengthen people impacted by cancer by providing support, fostering compassionate communities, and breaking down barriers to care.
